With your Smart Inspector Subscription, you can also elect to have your own Inspections loaded to use in the system

Step 1: Ensure you have a Smart Inspector Subscription

Once the report is built it will only be available via Smart Inspector so you will need to ensure you have a current subscription.

Step 2: Email your current Listing to autotech@repco.com.au

Copy your current inspection Report and send via email to Autotech@repco.com.au Make sure you include the below information for our team to load the inspection for the correct logins:

Account No: This can be found in the top left hand side of your Navigator Pro

Business Name: To check we are loading the inspection to the correct business

Contact Number: In case we need to verify anything on the inspection form

Step 3: Auto-Tech will Bill your nominated Account for the Set up Charge

Custom inspections are created for a one off \$99 (+Gst) Fee per Inspection. This covers Auto-Techs processing time in building the report for your system.

Step 4: Once the inspection is completed, Auto-Tech will inform you via email

Auto-Tech will let you know once your inspection is been loaded and is ready to go. Test it out and let us know of any additional selections or parts you need added and then Auto-Tech will finalise your customised inspection.

Step 5: You're good to go

Smart Inspector will hold your inspection for you as long as you continue your subscription. There is no limit to how many times you can use your inspection and it will not be shared to any other workshop or business without your expressed consent.
